Dance - A Level

This course involves studying Dance in both **practical and academic** contexts. Technical training, **predominantly in contemporary dance** will focus on developing physical and performance skills. Choreography and repertory performance which are central to the course, are developed in the studio through workshops and rehearsal in preparation for a practical exam. Classroom based analysis of professional works and contextual study of significant companies and choreographers, will inspire practical development and prepare students for an essay based written exam. The course provides an excellent grounding in the practical and academic skills required for degree level study and training in Dance. A Level Dance is accepted as a valid qualification (as one of your three main subjects) by most university courses. GCSE English Language level 4 required as well as some practical dance experience.
