

TEACHER OF 3D DESIGN & ENGINEERING Full Time Permanent Required for September 2025

The College of Richard Collyer in Horsham, 'Collyer's', is one of the leading sixth form colleges in the country and the no.1 choice for A Levels in West Sussex.

We are seeking to appoint an enthusiastic, committed and skilful practitioner to deliver on the 3D Design A-level and Engineering BTEC courses.

Established almost 500 years ago, the College of Richard Collyer is forward thinking in every way. Our mission is simple: to deliver the best possible education to our 2,500+ students aged 16 to 19. Our achievements speak for themselves consistently placing us within the top sixth form colleges nationally. In the summer of 2024, our students achieved an outstanding 59% A*-B. Results across our other qualification types are equally as strong. Approximately 70% of our offer is A-Levels, with 25% comprising Level 3 vocational and technical qualifications, and 5% comprising our Transition courses for students to bolster their Level 2 qualifications before progressing to Level 3. Alongside our academic, vocational and technical course we have a thriving enrichment programme with over 130 activities available to all students from sports to arts and crafts, and music.

A great college deserves a great location: we're close to the centre of the historic market town of Horsham and under an hour from London by train. We're a supportive community rather than just a place to work, and we are deeply committed to the professional development of our staff.

Qualifications: Good degree in relevant subject and teaching qualification (PGCE, Cert Ed, DET).

Experience: Current or recent experience of teaching Product Design or Engineering at level 3 desirable. ECT applicants warmly welcomed.

Knowledge and Skills: An excellent understanding of 3D Design and/or Engineering, the ability to use a mixture of CAD/Photoshop/3D software, and the ability and motivation to up-skill. Good practical skills, including workshop and lab safety.

Personal Qualities: Excellent teamwork and communication skills, flexibility and effective organisation.

Motivation and expectations: A commitment to high standards, to motivate and support the growth and maturing of students. An enthusiasm for teaching and supporting students.

As two growing subjects of the thriving Science Faculty, 3D Design A-level and Engineering BTEC are taught in our well-equipped technology centre's workshop and computer rooms, supported by a member of technician staff. 3D Design follows the AQA specification and the Engineering BTEC follows Pearson's Extended Certificate qualification.

COLLYER'S

The College of Richard Collyer

Members of the teaching staff are also personal tutors. Tutors monitor progress and offer support and guidance to twenty-five students. The ability to contribute to the enrichment programme would also be welcome.

Collyer's is committed to the professional development of all staff. Staff are encouraged to attend external CPD as well as in-house training events.

Collyer's is committed to safeguarding and follows safer recruitment procedures.

Salary range: On the SFCA salary scale £32,178 (Point 1) to £49,725 (Point 9)

To apply, please visit <https://www.collyers.ac.uk/vacancies/>

Closing Date: 9am Thursday 26th June

If you have any queries or would like to visit the college, please contact us on jobs@collyers.ac.uk. We look forward to hearing from you.
