

2A students

We hope you've had a good first week back at College.

Please read the important updates for 2A students below, along with the information found by clicking [here](#):

Registered Pro-Study

Please read the attached guidance by clicking [here](#) which explains Registered Pro-Study arrangements from September 2026. Check your timetable carefully and remember that attendance at allocated Registered Pro-Study periods is compulsory. Please raise any queries about Registered Pro-Study with your Tutor.

Early UCAS Deadline

Students who have been completing Progression Pathways for Oxbridge, Medicine/Dentistry/Veterinary Science and some Conservatoires, will be aware that we are approaching the college deadline of 26th September for submission of early university applications. These applications must all reach UCAS by 6.00pm on October 15th. The College must check all applications, adding references and predicted grades before sending onto UCAS, so please ensure you meet the internal deadline of 26th September. If you are newly considering one of these options, please be aware that many of these courses have strict entry requirements and/or conditions and may involve booking additional entry tests. Careful research is needed on the part of candidate to ensure that they meet and adhere to the criteria for entry and also meet our college submission deadlines. If you have any queries relating to early UCAS applications you can contact James McClelland, Oxbridge Co-ordinator JWM@collyers.ac.uk or Ian McAlister, Director of Progression im@collyers.ac.uk and they will be happy to help. The internal deadline for all other UCAS applications is 2nd November.

Kind regards

Andrea John

Vice Principal (Pastoral)
